

US Installation Record

Over seven million feet of the **Blue-Tek™** liner product have been installed in 25 countries around the world. With a product life of 50+ years and cost effective pricing, the **Blue-Tek™** liner system is a leader in the GRP-CIPP revolution. Throughout the world, older felt-based technologies are being rapidly displaced by glass fiber technologies, predominantly **Blue-Tek™**. Reline America began manufacturing **Blue-Tek™** in 2007 and has completed over 300 hours of training conducted by Brandenburger – the developer of Blue-Tek technology.

A total of 5551 linear feet of **Blue-Tek™** has been installed in North America as of 8/1/07. The following municipalities or consulting engineers can be contacted as references.
